

## FORMULAS ON WIC FOOD INSTRUMENTS

### **WIC Contract Formulas as of August 1, 2003:**

**Powdered Formula:** Powdered formula is the most widely used form of formula in CA. It is available in the following can sizes. No large can sizes of powdered formula are allowed.

**Concentrate Formula:** Concentrate formula is provided in a 13 oz. can size. This can size is uniform for all formulas made in concentrate form and is available for all contract formulas.

**Ready-To-Use Formula:** Ready-To-Use formula is only provided when the product is unavailable in powder or concentrate. This is only authorized for Enfamil AR and PediaSure formulas.

Product name	Form	Can Size
